Making Tax Digital

Michael Ball
Tax Director

Background

- Part of wider digital strategy
- Will bring VAT, corporation tax and income tax in line with PAYE & NIC.
 - Payroll information is already submitted digitally (RTI).
- Modernise the interaction with HMRC.
- To reduce the tax gap by
 - improving record keeping and
 - reducing errors by minimising re-entry of data

Mel Stride MP,
Financial Secretary to the Treasury, said:
“HMRC is transforming the tax administration so that it’s
more effective, more efficient and easier for taxpayers”
“More and more businesses use digital tools every day to
help them operate – tax shouldn’t be different. This is a
major step towards bringing VAT into the 21st century.”

Theresa Middleton, Director for Making Tax Digital
for Business, said:
“Millions of people are already banking, paying bills
and interacting with their suppliers and customers
online. Using digital tools to help businesses manage
their business income and expenses and get their tax
right builds on this momentum and will also help them
get more control over their finances.”

Full information on the pilot eligibility criteria and small deferral group is available at: gov.uk/government/publications/making-tax-digital

MTD for VAT - Deferral

Deferral to October 2019 for the following:-

- Trusts,
- 'Not for profit' organisations that are not set up as a company,
- VAT divisions and VAT groups
- Certain public sector entities required to provide additional information on their VAT return
- Local authorities and public corporations
- Traders based overseas,
- Those required to make payments on account
- Annual accounting scheme users.

MTD for VAT – Who?

- Initially will apply to those VAT registered businesses, landlords (where opted to Tax) and trading charities with turnover over the VAT threshold (currently £85,000).
- Those with turnover under £85,000 and voluntarily registered for VAT will be exempt from MTD for VAT - BUT expect this to change over time.
- Please note once you're in your in.
 - The draft regulations have been written such that once you have submitted a VAT return under MTD you can no longer go back to the old system.

MTD for VAT – What's not changing?

- 9 Box VAT return
 - Same information is being submitted
 - Subject to any changes resulting from Brexit
- VAT return frequency and payment deadlines
 - Monthly
 - Quarterly
 - Annual
- Eligibility for VAT Special schemes
 - Flat rate
 - Retail scheme etc.

MTD for VAT – What is changing?

- Keep records digitally
 - Functional compatible software
- Direct filing of VAT returns to HM Revenue & Customs
 - Return has to be submitted via software
 - No manual entry of figures on the HMRC website
- From April 2019
 - Begins with first VAT period starting on or after 1 April 2019
 - First Quarter End will be Quarter End 30 June 2019
 - Maybe part way through your accounts year!

Functional Compatible Software

- A software program, or set of software programs, products or applications, that must be able to:
 - record and preserve digital records
 - provide to HMRC information and returns from data held in those digital records by using the API platform
 - receive information from HMRC via the API platform
- API?
 - Application Programme Interface
- Spreadsheets?
 - These can still be used to maintain your digital records but will need to be linked to bridging software to perform the API submission.

Digital Records

- Required to keep their records digitally.
 - This means transaction data
 - You do not have to take digital copies of receipts
- Using either software or spreadsheets
 - Software does not have to be cloud based but can be
- The records can be kept either by the taxpayer or by their agent, but they must be kept digitally.
- Spreadsheets will need to use bridging software for the submissions.

Digital Records - VAT

- Data that must be recorded digitally
 - Designatory data:
 - business name
 - the address
 - VAT registration number
 - a record of VAT accounting schemes you use
 - For each supply you make you must record:
 - the time of supply
 - the value of the supply
 - the rate of VAT charged

Digital Records - VAT

- Data that must be recorded digitally
 - You must have a record of outputs split between:
 - standard rate, reduced rate zero rate and exempt & outside the scope
 - For each supply received record:
 - the time of supply
 - the value of the supply including any VAT that is not claimable
 - the amount of input tax that will claim be claimed
 - If more than one supply is on an invoice, record the totals from the invoice.
 - Retail scheme users – record of Daily Gross Takings only
 - **Adjustments:** Total for each type – but not calculations

What about other Taxes?

- Income Tax was originally planned to go live in April 2018, but was delayed.
- April 2020 “at the earliest”
 - MTD for Income Tax & Corporation Tax
 - Includes MTD for Businesses
 - and MTD for Individuals (replacement of Tax Returns)
 - As yet no information on the Corporation Tax system
- MTD for individuals (ongoing)
 - Dynamic PAYE codes
 - Better use of information
