A FREE presentation for employers and those responsible for Payroll and HR.

Whether you have just one employee or a large workforce, you do payroll in house or use a payroll bureau, our annual update aims to keep you informed of the issues, regulations and changes affecting payroll management and compliance.

The focus for our update will be around updating you and keeping you informed of the recent legislation affecting your payroll, along with the tax treatment and other compliance affecting both employers and employees.

With the last few updates focusing on the introduction of key changes such as RTI, Auto Enrolment and last year GDPR, this event will take a look at addressing the increasing challenges around the work force skills gap and productivity.

Improving your organisations productivity

Anita Wynne, Director and Founder of Beststart Human Resources

Anita will talk about how you can improve your organisation's productivity by ensuring individual effort on a daily basis aligns and converts into revenue and strong profit growth for the business. She will cover how you can take back control of your company by re-establishing expectations, setting clear goals and frameworks and keeping this on track with simple and consistent performance measurement that doesn't involve an annual appraisal. Anita will also talk about how you can improve employee engagement so that your people truly care about the organisation and being part of something that is more than just a 'pay cheque'.
