

Changes to the way the self-employed and those in business partnerships are taxed.

Thursday 12th October 2023 | 11am - 12noon

HMRC, His Majesty's Revenue and Customs, has introduced changes to the basis period, the defined timeframe used to calculate the taxable profits for taxing the self-employed and those in business partnerships. The changes relate to this tax year, 2023/24 and beyond.

This special webinar, led by Streets Tax Partner Michael Ball, aims to provide a clear understanding of what the basis period is, the recent changes, who it affects, when it takes effect and considerations for those affected.

Virtual event via Demio

This presentation will be recorded and available on demand for those not able to join us live. Simply register to receive a link to watch on demand.
