Speakers & Topics

With the introduction of the VAT domestic reverse charge for buildings and construction services coming into effect from 1st October this year, this presentation serves as a great opportunity for those in the sector to learn more about its impact. Attendees will also benefit from a timely update on other changes as well as a refresher on VAT and other tax related matters affecting the industry.

This event will be led by **Indirect Tax & VAT Specialist, Gerry Myton**. Gerry's presentation will cover taxation matters relating to:

- Mixed use developments
- Conversions – commercial to residential, change in number of dwellings
- The introduction of the Domestic reverse charge and its potential impact

The second presentation will be given by **Alastair Kendrick, Employment Tax & CIS Specialist**. His presentation will focus on the tax issues and treatment relating to employment within the sector, including:

- the construction industry scheme rules and areas of current interest to HM Revenue and Customs
- using workers who are off the payroll and the tax issues surrounding this
- travelling expenses for site based workers
- when is a van a van for Benefit in Kind (BIK) purposes
